

AGATE QUILT CUTTING LIST

Diamonds

The diamonds are $3\frac{3}{8}$ inch squares, cut on the bias so that the grain of the fabric runs from point to point.

From Fabric G:

Six $3\frac{3}{8}$ -inch squares, cut on the bias

From Fabric H:

Seven $3\frac{3}{8}$ -inch squares, cut on the bias

Horizontal Strips

All strips are $2\frac{1}{2}$ inches wide.

Notes:

If you are using a fabric that doesn't have a right and wrong side, you only need to worry about the position of the 45° point on the strips that have been pieced. (These pieces will be over 40 inches long and are highlighted in yellow below.) Otherwise, just make sure to cut the 45° angle at one end; you can flip the piece later to change its orientation.

The measurements given below are taken along the longer horizontal edge of the strip.

From Fabric A:

For Strip 1:

40 $\frac{1}{2}$ inches- with the 45° point at the top right corner

10 $\frac{1}{2}$ inches- with the 45° point at the top left corner

For Strip 3:

6 $\frac{1}{2}$ inches- with the 45° point at the top right corner

44 $\frac{1}{2}$ inches- with the 45° point at the top left corner

For Strip 6:

46 $\frac{1}{2}$ inches- with the 45° point at the top right corner

4 $\frac{1}{2}$ inches- with the 45° point at the top left corner

For Strip 10:
50 inches- with straight ends

From Fabric B:

For Strip 2:
40 ½ inches- with the 45° point at the bottom right corner
10 ½ inches- with the 45° point at the bottom left corner

For Strip 7:
46 ½ inches- with the 45° point at the bottom right corner
4 ½ inches- with the 45° point at the bottom left corner

For Strip 12:
12 ½ inches- with the 45° point at the top right corner
38 ½ inches- with the 45° point at the top left corner

For Strip 15:
38 ½ inches- with the 45° point at the bottom right corner
12 ½ inches- with the 45° point at the bottom left corner

From Fabric C:

For Strip 4:
6 ½ inches- with the 45° point at the bottom right corner
44 ½ inches- with the 45° point at the bottom left corner

For Strip 11:
50 inches- with straight ends

For Strip 20:
6 ½ inches- with the 45° point at the bottom right corner
44 ½ inches- with the 45° point at the bottom left corner

From Fabric D:

For Strip 5:
50 inches- with straight ends

For Strip 8:
26 ½ inches- with the 45° point at the top right corner

24 ½ inches- with the 45° point at the top left corner

For Strip 13:

12 ½ inches- with the 45° point at the bottom right corner

38 ½ inches- with the 45° point at the bottom left corner

For Strip 16:

50 inches- with straight ends

For Strip 18

36 ½ inches- with the 45° point at the bottom right corner

14 ½ inches- with the 45° point at the bottom left corner

For Strip 23:

16 ½ inches- with the 45° point at the top right corner

30 ½ inches- with a 45° point at the top left corner AND a 45° point at the top right corner

5 ½ inches- with a 45° point at the top left corner

For Strip 28:

4 ½ inches- with the 45° point at the bottom right corner

46 ½ inches- with the 45° point at the bottom left corner

From Fabric E:

For Strip 14:

38 ½ inches- with the 45° point at the top right corner

12 ½ inches- with the 45° point at the top left corner

For Strip 17:

36 ½ inches- with the 45° point at the top right corner

14 ½ inches- with the 45° point at the top left corner

For Strip 19

6 ½ inches- with the 45° point at the top right corner

44 ½ inches- with the 45° point at the top left corner

For Strip 21:

50 inches- with straight ends

For Strip 25:

28 ½ inches- with the 45° point at the top right corner

22 ½ inches- with the 45° point at the top left corner

For Strip 27:

4 ½ inches- with the 45° point at the top right corner

46 ½ inches- with the 45° point at the top left corner

For Strip 30:

8 ½ inches- with the 45° point at the bottom right corner

42 ½ inches- with the 45° point at the bottom left corner

From Fabric F:

For Strip 9:

26 ½ inches- with the 45° point at the bottom right corner

24 ½ inches- with the 45° point at the bottom left corner

For Strip 22:

50 inches- with straight ends

For Strip 24:

16 ½ inches- with the 45° point at the bottom right corner

30 ½ inches- with a 45° point at the bottom left corner AND a 45° point at the bottom right corner

5 ½ inches- with a 45° point at the bottom left corner

For Strip 26:

28 ½ inches- with the 45° point at the bottom right corner

22 ½ inches- with the 45° point at the bottom left corner

For Strip 29:

8 ½ inches- with the 45° point at the top right corner

42 ½ inches- with the 45° point at the top left corner

For Strip 31:

50 inches- with straight ends
