

## 1. Forest Quilt: Tree Blocks: Cutting the pieces

tree top cutting: (makes 2 trees.)

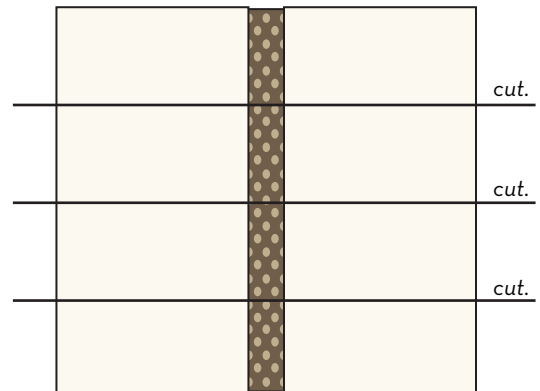

cut each diagonally as shown. With the green (or any single-sided fabric), you must cut 2 pieces diagonally opposite to each other in order to make the pieces match up properly.

tree trunk cutting: (for several trunks)

You can make a strip of stumps as long as you please, here only for example shown as 4".

Sew the pieces together (1/4" seam allowance).  
press the seams flat.

once you've sewn a strip of tree trunks, use a clear quilting ruler to cut 1" pieces from it.
